Card A: The Non-Linear Realization

The Stranger (God) speaks: "Every time you victimized someone, you were victimizing yourself. Every act of kindness, you did to yourself. Every happy and sad moment ever experienced by any human was, or will be, experienced by you."

The Traveler asks: "Wait, I'm everyone? What about John Wilkes Booth? What about Jesus?"

God: "You were both of them, and the millions who watched them."

The Traveler: "What about time? How can I be in the past and future at once?"

God: "Time, as you know it, only exists in your universe. Where I come from, time does not move in a straight line."*

Card B: The Unexpected Departure

he Traveler: "I died? How? What about my wife and my kids?"

God: "It was a quick car crash. Don't worry, your family will remember you fondly. Your death was painless."

The Traveler looks around: There are no gates, no fiery pits, just an infinite space and a quiet presence standing beside them.

The Traveler asks: "What is this place? Are you God? Is this Heaven?"

God replies: "It is a place of transition. And yes, I am what you might call God."

Card C: The Cosmic Incubator

The Traveler: "Why do all of this? Why create a universe where one soul lives every life?"
God: "Because this universe is an egg. Earth is an incubator."

God explains: "You cannot grow into a mature entity, a peer to me, until you have lived every human life, experienced every emotion, made every mistake, and felt every joy. Once you have lived every single life across all of human history, you will finally be born."

Group Discussion Questions (To write on whiteboards):

1. Sequence Check: What is the correct order of the cards? (Solution: B -> A -> C)

2. Key Question: Why does time not need to be chronological for this theory to work?
